Annual Leave

Equal Experts offers full-time employees 25 days of annual leave per year. The leave year runs from 1st January to 31 December.

Compassionate Leave/Family Responsibility Leave

We know that sometimes you will need to take time off to come to terms with the death of a loved one, a serious illness or injury involving a loved one, or serious personal relationship problems. The purpose of this policy is to tell you what you should do and how Equal Experts will support you in these difficult circumstances.

Maternity leave

All pregnant employees who have completed at least 3 months of service are eligible for a minimum of four (4) months paid maternity leave. Any additional leave required over and above the four (4) month period would be unpaid

Paternity leave

10 Days paid paternity leave to employees who have completed at least 3 months of service are eligible for 10 days of paternity leave

Global Profit Share

You will be eligible to join our Profit Share scheme that shares a percentage of our global profits with all employees, set at the end of our financial year each March. We currently share 25% of our operating profits, after all our costs are accounted for. Your profit share payment is based on how long you've been in the EE network and calculated on your base salary only, prorated from your employment start date. Because this is based on the performance of the whole company and not your personal performance, it's not a predetermined percentage of your salary. However, using the previous 3 years to give you an idea, this is what the percentages would have looked like:

Tenure	Percent of base salary: FY 2019/20	FY 2020/21	FY 2021/22	FY 2022/23
< 1	10% (prorated to start date)	10% (prorated to start date)	11% (prorated to start date)	14% (prorated to start date)
1-2	12%	21%	22%	28%
> 2	15%	32%	33%	42%

- **Tenure** is the total years the person has spent in the Network at the end of the financial year. This is time spent working directly with us, as an employee or as an associate

Remember the percentage paid will change each year and the figure is calculated in April and paid in May.

It is key to mention that what has happened before is not an indication of the future necessarily. 2021 and 2022 were exceptional years
